## 6. Tuples

Create list of tuples that contains the names of your favorite movies, along with their release years. Sort it based on the release years in descending order and display the sorted list.

Expected Test Result:

```
favorite_movies = [
    ("Inception", 2010),
    ("The Shawshank Redemption", 1994),
    ("Pulp Fiction", 1994)
]

# Output
Sorted list:
1.("Inception", 2010)
2.("The Shawshank Redemption", 1994)
3.("Pulp Fiction", 1994)
```

**Note: For each exercise you need to follow Functional Programming rules.**
